

(You really need to replace this single-one-page-file Here are the)

# APPROVAL INSTRUCTIONS

1. Go and open the file named: ApprovalBeforeScanning.tex
2. Make the appropriate substitutions in the file (instructions are also found inside the file).
3. Compile that file with Latex, then dvtops, then pspdf
4. Print it
5. Sign it, Scan it, Save it as Approval.pdf in this folder
6. When you save it, the computer will ask you if you want to replace it with a file that already exists, say yes!
