(You really need to replace this single-one-page-file Here are the)

## INSTRUCTIONS LICENSE INSTRUCTIONS

1. Go and open the file named: DistLicenseBeforeScanning.tex

2. Make the appropriate substitutions in the file (instructions are also found inside the file).

3. Compile that file with Latex, then dvitops, then pspdf

4. Print it

5. Sign it, Scan it, Save it as License.pdf in this folder

6. When you save it, the computer will ask you if you want to replace it with a file that already exists, say yes!
