

UPCOMING ROAD TRIPS

Mt. Wilson Observatory

November 1, 2017

Mount Wilson was one the most famous observatory in the world. The biggest telescopes are here and in 1920, Edwin Hubble, from the 100-inch telescope, discovered the Andromeda Galaxy is a galaxy in its own right.

JET PROPULSION LAB

January 11, 2018

The Jet Propulsion Laboratory (JPL) is a federally funded research and development center and NASA field center in Pasadena. The laboratory's primary function is the construction and operation of planetary robotic spacecraft. It is also responsible for operating NASA's Deep Space Network.

CANDIDE - LA OPERA

February 18, 2018

100th anniversary of Leonard Bernstein's comedic operetta captures Voltaire's depiction of the cynicism of society, satire of innocence, optimism and the unexpected lessons of life. Featuring Kelsey Grammer and the Los Angeles Philharmonic
