Road Tour to Sunnylands/“Camp David of the West.”

Cost: \$ 90.00/person - Date to Register available soon

THE “Camp David of the West” TOUR

Tour Guides take visitors on an electric shuttle into the historic house and through the surrounding estate. In addition to enjoying a comprehensive tour of Sunnylands, designed by A. Quincy Jones, visitors will see parts of the 200-acre estate, including the Dick Wilson golf course. The tour guides offer guests information about items from the Sunnylands Collection, the building's architecture and interior design, and the history of the estate as a private residence and a high-level retreat center. It has served seven presidents from President Eisenhower to President Obama.

An exhibit on the gifts from queens, kings, etc. will be on display as well.

OLLI ACTIVITIES - BUS TOURS

March 8 - LA Opera *Barber of Seville*

March 18th and 19th - Vandenberg Air Force Base

June 2 - Additional Vandenberg trips

April 11 - Dead Sea Scrolls - LA Museum

The Membership and Outreach Committee wants to thank all the members and instructors, past and present, who turned out for OLLI-Fest on Jan 21st. Celebrating OLLI's 10th anniversary at CSUCI was a special event.

Looking around at the crowd at the Las Posas Country Club it seemed that everyone was having a great time chatting and visiting, making new OLLI friends. Thanks to all those who helped put together the event, and especially to Geri for the beautiful video displays.. See you next year.

Su and Judy

Below, members of the Membership and Outreach Committee host tables at the Camarillo Library and the Senior Health Expo at the Goebel Adult Community Center to recruit and increase public awareness of the OLLI program.

The committee encourages members to join the committee to participate in activities like this, as well as becoming Ambassadors in classes they attend. There are many personal benefits as well as being on the fast track for OLLI information. To join in the fun, send your email address to Su Part (supart@gmail.com) or Judy Gaviati (judygavi@aol.com)

Editor's Note:

So many changes are happening right now. Spring is either early (Is it Climate Change?) or I have forgotten how Nature acted last year and the year before. I see that Poppies and Lupin have sprung up on a couple of the hillsides as I make my way down the Potrero Grade commuting to campus. Thanks to the rain, the blackened earth is covered with a velvety carpet of fresh green growth.

As I pass the back of the campus, I see a few of the old buildings being demolished. Our beautiful campus is emerging from the of the past. I watched as one old window with shattered remained on a last-standing wall, crashing to the earth from the jaws of a

Red-tailed hawks and seeking venues for nests

rebar and plaster dust the panes partly before finally relentless machine. hummingbirds or using the old ones

remind us that it's merely a few days until Official Spring. OLLI office staff fields hundreds of calls filling requests for fabulous spring class offerings. Check for classes at OLLI C1 on Google and call soon.

Reservations for local Day Trips and Road Tours await for PLAYing now. The next Day Trip on March 12 to the Commemorative Air Force Museum is mentioned above with the reservation phone number. What a fun way to make new friends while enjoying the old...as in previous, not chronological. See you in classes which start March 23, just a couple days after the start of spring.
