MS Mathematics

Teaching Associate Positions

Dated 04/19/17

Many MS Mathematics students teach one course as a Teaching Associate (TA). In addition to gaining valuable collegiate teaching experience, they earn \$3,000 to \$4,000 depending on the course taught, which covers the cost of approximately 7 course units of the MS Mathematics program.

Applications are web-based: use the "search jobs" link on the [CI Employment website](#). If a position described as "Mathematics-Teaching Associate-Part Time" does not come up in the search, then the positions are either not available yet or have been filled for the coming semester.
